EDUCATION

KURUKSHETRA UNIVERSITY
B.Tech(Honors) in Computer Science
Grad 2017 | Ambala, Haryana
Cum. Marks:71.7/100

MM INTERNATIONAL SCHOOL
Science
Grad Apr 2013 | Ambala, Haryana
Cum. Marks: 72/100

DAV CENT. PUBLIC SCHOOL
Grad. Apr 2011| Ambala, India

COURSEWORK

ONLINE
Python for Data Science
Advanced Machine Learning
Deep Learning
Cryptography
Blockchain Development

UNDERGRADUATE
Data structure and Algorithms
Operating Systems
Statistics Models for CS
Functional Programming
Mathematics and Discreete Structures
Computer Networks

CERTIFICATIONS

Blockchain Essentials
IBM Blockchain Foundation Developer

EXPERIENCE

REALTO ESTATE LLC (KYNITE TECHNOLOGIES) | CTO
July 2019 – present | Hyderabad, In
- Development of Realto application and its smart contracts and leading all aspects of the development lifecycle
- Responsible for architecture and development of blockchain solutions.
- Development, implementations of smart contracts using programming languages like Node.js, solidity etc
- Research on new blockchain technologies, technical planning and process.
- Creates and maintains reports, backlogs and all activities of the product in partnership with Founder's
- Manage, improve, and monitor cloud infrastructure on AWS: EC2, S3, EBS, and lambda etc.

COGNIER INSIGHTS PVT. LTD | Senior Blockchain Developer (Director)
July 2017 – July 2019 | Hyderabad, In

- Lead the planning, research, and implementation of blockchain solutions.
- Development of smart contract, web services and backend using Node.js, python, solidity.
- Implemented enterprise solutions for Healthcare, Real Estate, supply chain.
- Lead the Blockchain and data science research teams in a high paced agile based environment.
- Architecture and planning of the solutions on Ethereum, Hyperledger and Tendermint.

SKILLS

Programming Languages:
Node.js • Solidity • Python
Blockchain Frameworks:
Ethereum • Hyperledger - Fabric/Iroha/Sawtooh • Tendermint
Database:
BigChainDb • MongoDb • MySql
Libraries/Protocols:
Truffle • Web3 • IPFS • Dialogflow
Familiar:
Docker • Github • AWS

PROJECTS

Realto App
SaaS marketplace for buying and selling Real Estate tokens.
Ownet
Real estate subscription and booking platform build on Hyperledger fabric.
MedCryp
Blockchain product to store and share medical records securely.
Secure file sharing
Peer to peer file sharing application with time based keys.
Scalable Video Analytics
Computer vision project for customer segmentation from live video stream
